|-------------------|-------------------------------------------------------------------------------------------------------|-----------------------|
| UPCOMING<br>TALKS | • Conference: Lie theory, Spectra and Dynamics, Paderborn                                             | 1-5 September, 2025   |
|                   | • Geometry Colloquium, Université Paris-Est Créteil                                                   | 12 September, 2025    |
|                   | • Workshop on micro-local analysis and dynamics, Longeville-sur-Mer                                   | 16 September, 2025    |
|                   | • Two days on Inverse Problems and Minimal Surfaces, Lyon                                             | 22-23 September, 2025 |
| TALKS             | • Seminar of Institute for Mathematics, Belgrade                                                      | 13 June, 2025         |
|                   | • Differential Geometry and PDE seminar, University of Washington                                     | 4 June, 2025          |
|                   | • Conformal Geometry and Dynamics, Bucharest                                                          | 24 April, 2025        |
|                   | • Ergodic Theory and Dynamical Systems Seminar, Zurich                                                | 12 March, 2025        |
|                   | • Analysis seminar (online), IIT Bombay                                                               | 4 February, 2025      |
|                   | • Workshop on Special Structures in Dynamics and Geometry, Paris                                      | 8-10 January, 2025    |
|                   | • Summer School: Geometric Inverse Problems and Inverse Problems for Elliptic Equations, Santa Cruz   | 19-22 August, 2024    |
|                   | • Microlocal Analysis seminar (online), Fudan University                                              | 2 May, 2024           |
|                   | • Inverse Problems Zoom Seminar, University of Helsinki                                               | 28 September, 2023    |
|                   | • Two talks at Applied Inverse Problems, Göttingen                                                    | 4-8 September, 2023   |
|                   | • Graduate Colloquium, Zurich                                                                         | 29 November, 2022     |
|                   | • Geometry Seminar, ETH                                                                               | 23 November, 2022     |
|                   | • Workshop: Geometric Inverse Problems, Linz                                                          | 7-11 November, 2022   |
|                   | • Geometry and Topology Seminar, Jussieu, Paris                                                       | 6 October, 2022       |
|                   | • Section talk at DMV Annual Meeting, Berlin                                                          | 12-16 September, 2022 |
|                   | • Seminar talk at Nicolaius Copernicus University, Toruń                                              | 31 May, 2022          |
|                   | • Colloquium talk at Kuwait University                                                                | 6 April, 2022         |
|                   | • Geometric Inverse Problems and Dynamical Systems, Roscoff                                           | 7-11 March, 2022      |
|                   | • Leeds Geometry Seminar                                                                              | 2 February, 2022      |
|                   | • Geometric Analysis Seminar, Indian Institute of Technology, Bombay                                  | 27 January, 2022      |
|                   | • Minisymposium on Inverse Problems (RSME), Ciudad Real                                               | 17-21 January, 2022   |
|                   | • Seminar on PDEs and Mathematical Physics, Zurich                                                    | 28 October, 2021      |
|                   | • Ergodic Theory and Dynamical Systems Seminar, Zurich                                                | 22 November, 2021     |
|                   | • Special Semester on Tomography Across the Scales: a Prequel, Linz                                   | 11 October, 2021      |
|                   | • International Inverse Problems Seminar                                                              | 23 September, 2021    |
|                   | • Workshop: Ruelle-Pollicott Resonances in Dynamics and in Semi-classical Analysis, Lausanne (online) | 5 March, 2021         |
|                   | • Séminaire: Problèmes Spectraux en Physique Mathématique (online)                                    | 1 February, 2021      |
|                   | • Paderborn geometric analysis seminar                                                                | 8 December, 2020      |
|                   | • Heidelberg Analysis Seminar                                                                         | 19 November, 2020     |
|                   | • Advanced Topics in PDE seminar, Bonn                                                                | 13 November, 2020     |
|                   | • Séminaire ANH, Orsay                                                                                | 20 January, 2020      |
|                   | • Seminar semiklassische Analysis und Darstellungstheorie, Köln                                       | 3 December, 2019      |
|                   | • Oberseminar differentialgeometrie, MPIM, Bonn                                                       | 21 November, 2019     |
|                   | • MSRI seminar, Berkeley, USA                                                                         | 29 October, 2019      |
|                   | • Workshop on Symplectic Topology, Belgrade, Serbia                                                   | 20 August, 2019       |
|                   | • Workshop: Probing the Earth and the Universe with Microlocal Analysis, Banff, Canada                | 18 April, 2019        |
|                   | • Dynamics, geometry and interactions seminar, MPIM, Bonn                                             | 2 April, 2019         |
|                   | • 10th Itinerant Workshop in PDE's, INdAM, Rome Sapienza                                              | 31 January, 2019      |
|                   | • Symplectic Topology Seminar, Mathematical Faculty, Serbia                                           | 28 December, 2018     |
|                   | • Second Annual Meeting, SANU, Serbia                                                                 | 25 December, 2018     |
|                   | • Dynamics, geometry and interactions seminar, MPIM, Bonn                                             | 6 November, 2018      |
|                   | • Conference: Inverse and Spectral Problems for (Non)-Local Operators, Leipzig, Germany               | 10 September, 2018    |
|                   | • Summer school: Inverse problems and Unique continuation, Kopp                                       | 4 September, 2018     |
|                   | • Workshop: Inverse problems, PDE and geometry, Jyväskylä, Finland                                    | 20 August, 2018       |
|                   | • Oberseminar Differentialgeometrie, MPIM Bonn                                                        | 28 June, 2018         |
|                   | • Workshop: Analytic study of flows, Peyresq, France                                                  | 5 June, 2018          |
